GRAND MEAN (bu/acre)		103						
LSD (bu/acre) (0.05)		5						

¹Maturity ratings: Hazlet reaches maturity in approximately 219 days.

²All varieties are susceptible to ergot. Current testing does not suitably differentiate varietal differences from other factors such as weather, crop development stage, inoculum load, and management.

NT = Not tested

~ Indicates a variety that is protected by Plant Breeder's Rights legislation that complies with UPOV 1978.

` Indicates a variety that is protected by, or has been applied for and is pending, Plant Breeder's Rights legislation that complies with UPOV 1991.
